

October 2009

Dear Ministry Partners,

We want to send you this month a copy of the latest **JESUS Film Project update** newsletter. The lead article in this issue about *Nepal* is especially of interest to us since we personally know the couple who started the CCC ministry there. They went through our training center for staff members in Manila for nine months in 1983 and went back to work with about 50 known believers then in the entire country. Today, 26 years later, there are an estimated 2 million believers in 600 churches in this predominantly Hindu nation of 28 million people.

You will be thrilled to read how the Lord used the *JESUS* film to reach two *Hindu priests* who are brothers and are now faithfully attending a church with fellow Christians...

Plus how the government just last year sanctioned *Christmas Day a national holiday* for the first time...

Or about the *dramatic deliverance* of a well-known healer who couldn't control the demon wrestling inside him.

Thank you also for your prayers for our *JESUS Film Project briefing* earlier this month in Lake Tahoe, California. About 200 guests came and significant resources were committed by new and current ministry partners to expand global outreach and produce new translations. With Asia as the focus of the briefing, it was a neat bonus for me to hang out with some of our Asian leaders from China and India whom I have known through the years.

Blessings on you and your family as we enter the Thanksgiving season!
